

A complete range of food boards to meet your needs

Polypads™ are press moulded from High Molecular Weight Polyethylene Grade 500, which is an industry approved PREMIUM quality material for food contact and preparation.

- Perfectly smooth, even and consistent cutting surface
- Extremely durable, reliable and consistent in quality
- Polypads™ are non-absorbent to liquids and odours, therefore do not harbour bacteria
- Heat stabilised to prevent warping under high temperature rendering Polypads™ completely dishwasher safe

- In house manufacturing means we can offer a bespoke service in any size. We can incorporate juice wells, gravy grooves, etc.

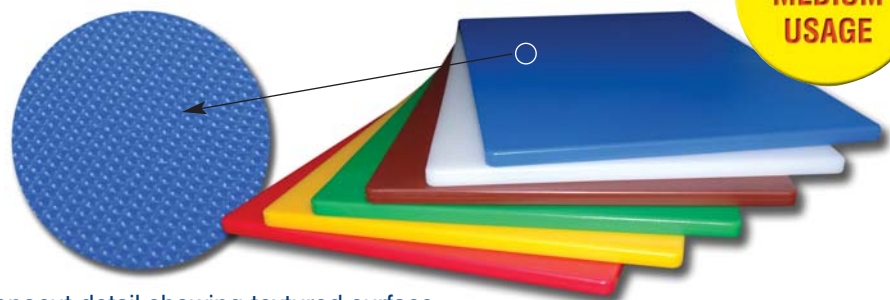

The NEW PolyCut food boards are manufactured from High Density Polyethylene.

- A smooth surface finish
- Durable and reliable
- Available in sizes 18" x 12" and 24" x 18", in both 12mm and 25mm thick

EconoCut™ food boards are Injection Moulded to produce a highly economical board.

- EconoCuts™ are manufactured with a textured surface finish for an enhanced non-slip surface
- Low cost allows for regular replacement
- Available in 18" x 12" in both 12mm & 25mm thick
