

ecologica

European quality
at a World price!

S E R V I
FORM

No, it is no longer a dream.

A fully automatic bending machine manufactured by the European leading company in diemaking automation at a price unbelievable till now.

Ecologica has it all: **outstanding quality, European reliability and affordable price.**

No more need for hydraulic pumps, Ecologica is fully electrical. A bending machine at the top of the range as far as efficiency is concerned.

Reduce production time and increase quality with **the best value for money machine on the market.**

Ecologica comes with **interchangeable bending head system**, it can work, with appropriate tooling, 1.5, 2 and 3 Pt rule. Broaching module is available as optional. Also perf and cut/crease cartridges available.

Reduce production time, your costs and machine price choosing Ecologica, the lean option in the Serviform group of machines.

Serviform was established to give a daily service to the diemaking diecutting and printing industries with the supply of machines, computerised systems and solutions.

TECHNICAL SPECIFICATIONS

Hardware	IBM Compatible Windows XP OS
Data input	CFF 2, DDES, DXF, DWG
Steel rule thickness	1.5, 2 and 3Pt.
Steel rule height	20,00 ~ 32.00 mm .708" ~ 1.250"
Power supply	220V Ph+N+G 2 Kw
Air pressure	6 bar - 87 psi
Dimensions	Machine body: mm1000x765x1750 Coil holder trolley: mm650x500x900
Weight	Machine body: 150Kg - Coil holder trolley: 30Kg
