

A complete range of food boards to meet your needs

Polypads™ are press moulded from High Molecular Weight Polyethylene Grade 500, which is an industry approved PREMIUM quality material for food contact and preparation.

- Perfectly smooth, even and consistent cutting surface
- Extremely durable, reliable and consistent in quality
- Polypads™ are non absorbant to liquids and odours, therefore do not harbour bacteria
- Heat stabilised to prevent warping under high temperature, rendering Polypads™ completely dishwasher safe.
- In-house manufacturing means we can offer a bespoke service in any size. We can incorporate juice wells, gravy groove etc.

Econocut detail showing textured surface

EconoCut™ food boards are Injection Moulded to produce a highly economical board.

- EconoCuts™ are manufactured with a textured surface finish for an enhanced non-slip surface
- Low cost allows for regular replacement
- Available in 18" x 12" in both 12mm & 25mm thick

Hygienic Food Cutting Surfaces
