Plastic Engineering

As specialists in plastic, our CNC department have a wealth of experience of working with the food industry to create engineered bespoke Conveyor Parts.

Such machine and production parts include star wheels, conveyor straights, conveyor tracks, finger guards, guide rails, plates, plastic rod, wear bends, machine guards and many other wearing parts. Partwell Group have a range of CNC routers for producing plastic components.

As part of the Partwell service, we can recommend appropriate plastic materials, taking into account the industry type and application, essential features, machining needs and budget.

For a quotation on any bespoke plastic parts please contact the CNC engineering department directly on **01254 295707** or email your drawings to **cnc@partwell.com**

Conveyor wear strip Green/Black 1000g

Acetal finger guard

PE 500g Natural side rails for conveyor

PE500g Natural scraper

PE1000g Natural wear plate

PE1000g regen black wear pads

Premium quality polyethylene blocks and boards

Polyethylene butchers chopping blocks can be supplied as the replacement polyethylene block alone or with our stands which can be made from alloy or stainless steel.

Our professional plastic butchers blocks are manufactured from premium quality cast, high molecular weight polyethylene PE500 grade.

- Ideal for high frequency usage, extremely durable and reliable
- A perfectly smooth, even and consistent butcher's surface
- Non-absorbent to liquids and odours and therefore do not harbour bacteria

We hold vast stocks of sheet polyethylene material in various colours and sizes to cater for any bespoke size requirements. All alloy and stainless steel stands are made to order.

Bespoke chopping boards - high molecular weight

Product Code	Size	Colours
PE500	12mm thick 20mm thick 25mm thick	White, Brown, Bright Red, Yellow, Green, Blue

Bespoke table tops - ultra high molecular weight PE500

Product Code	Size	Colours
PE5RB50	50mm thick	Red/Brown
PE5WH50	50mm thick	White
PE5RB1H	100mm thick	Red/Brown

Bespoke stands also available

Maple Blocks

Canadian Rock Maple End Grain butchers blocks, manufactured from seasoned and dried timbers, reinforced with steel rods in both directions.

These premium quality reversible 7" thick maple butchers blocks are available in a variety of sizes, with or without a block stand.

All timber used is FSC certified.

The lightweight and corrosion-free alloy stands are 26" (660mm) high.

Block sizes: 16" x 16", 18" x 18", 18" x 24" & 24" x 24"

Block Thickness: 7"

It is imperative not to site a natural wood product next to direct heat or in constant sunlight. If you have any doubts contact us as we can ensure you receive a block specially made for you and one which will give trouble-free use.

For correct timber selection please state environment when ordering.

Canadian rock maple butchers blocks

16" x 16" x 7"
18" x 18" x 7"
24" x 24" x 7"
36" x 24" x 7"
48" x 24" x 7"

Alloy stands to suit

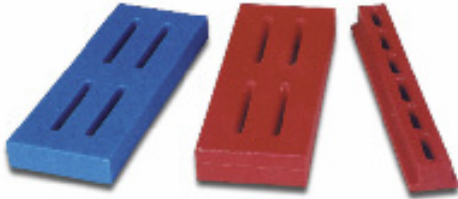

16" x 16" x 7"
18" x 18" x 7"
24" x 24" x 7"
36" x 24" x 7"
48" x 24" x 7"

Other sizes & stands available on request

Knife holders

Partwell manufacture polyethylene plastic knife holders and knife blocks according to customer requirements.

Knife holders are machined from premium quality polyethylene material (high molecular weight PE500 grade polyethylene). This material offers:

Excellent reliability and durability

A surface finish that is kind to the cutting edge of a knife, will not blunt

An easy to clean material as it is completely dish washer safe

For a quotation please specify:

- The number of slots required
- Size of slots
- Chamfered slots for knife sharpeners
- For wall mounting or slotting into butchers blocks or tables
- Range of colours, colour choices include bright red, yellow, green, blue, red/brown & natural

Thickness of material: 25mm or 50mm

For a quotation on knife blocks or any other machined plastic components for butchers, abbatoirs and meat processing and cutting plants call 01254 671875 or email info@partwell.com. Partwell also manufacture:

- Butchers blocks, cutting blocks & tables
- Meat Rammers
- Fat Beaters

Mincemeat Rammers and Fat Beaters

Mincemeat rammers / mincers manufactured from Polyethylene.

Lengths: 133mm, 203mm, 300mm & 406mm

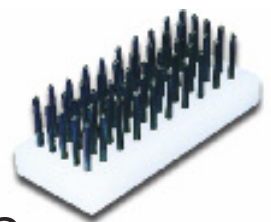

Diameter: 48mm

Polyethylene rammers

Product Code	Size
BS0051	133mm length
BS0052	203mm length
BS0053	300mm length
BS0054	406mm length

Polyethylene fat beater

Product Code
BS0101

Block Brushes

Polyethylene handle block brush with sharp steel blade, removes both stubborn waste and the board surface as well.

Ideal for use in butchery and fish filleting applications.

Product Code
BS0001

food industry.

Partwell History

Partwell Group is a family-owned company which was established in 1979 by Blackburn Engineer, John Bradburn. His son, Ashley Bradburn, moved the business into manufacturing as well as maintaining its roots in Engineering and Problem solving.

Over the years, the business has demonstrated continuous innovation and this lies at the heart of our philosophy. The company has grown from a 3 person company to nearly 40 people, yet the core, family based values remain in everything we do.

Our family values of **Trust and Honesty** have enabled Partwell to build strong relationships with suppliers, partners and customers in the search for achieving competitive excellence.
